PROGRAMMING SKILLS **Languages:** C++ (expert), **Python** (fluent), **Go**, **SQL** (proficient)
Concepts: algorithms, data structures, OOP, FP, asynchrony and multi-threading, web and networking

PROFESSIONAL EXPERIENCE **Kaspersky Lab**, Software Developer June 2021 – now
Cross-platform source control manager for huge repositories
Developed console app, virtual FS layer and RPC services
Techs: C++, **git**, **gRPC**, **CMake**, **Windows**, **Linux**, **MacOS**

Sirius.IS, Software Engineer Dec 2020 – Feb 2021
Developed comp. vision algorithms, services for RT video processing
Techs: C++, **OpenCV**, **PostgreSQL**, **Docker**, **Linux**

Yandex, Junior Software Engineer Aug 2018 – Jun 2019
Backend of Yandex.Metrika (highload web analytics service)
Developed data processing algorithms, deployed microservices
Techs: C++, **Java**, **ClickHouse**, **MySQL**, **Jenkins**, **Linux**, **bash**

Yandex, Software Engineering Intern Apr 2018 – Jul 2018
Video search crawler
Developed web page parsers, services for calculating various metrics
Techs: C++, **Python**, a number of internal tools

OTHER PROJECTS **codenames-duet-bot** [github link] 2019 – 2020
Telegram bot for playing «Codenames.Duet» board game
Techs: **Python**, **PostgreSQL**, **Telegram Bot API**

EDUCATION **Lomonosov Moscow State University** 2012 – 2018
Faculty of mechanics and mathematics
Specialist's degree in **Mathematics** (equiv. to **Master of Science**)
GPA 98

Yandex Data Analysis School 2017 – 2020
Passed: Algorithms I, Probability Th., Python, C++ I and II, Go

LANGUAGES **English** (fluent), **Russian** (native)
